

AMENDMENTS TO THE SPECIFICATION

The paragraph on page 8, lines 25-26, has been amended as follows:

FIG. 8 is a perspective view of the foldable portable telephone set of FIG. [[8]] 7 in a folded state; and

The paragraph on page 13, lines 22-24, has been amended as follows:

Now, operation of the foldable portable telephone set 40 when it is used with a whip antenna of the antenna [[40]] 23 accommodated therein is described with reference to FIGS. 3 and 4.

The paragraph on page 19, lines 5-12, has been amended as follows:

The control section 33 receives the detection signal and turns ON the matching characteristic changeover circuit 41 (step 206). In particular, the predetermined voltage is applied to the resistor R1 to supply the cancel current I2 to the second inductor L2 of the matching characteristic changeover circuit 41. The cancel current I2 cancels the ~~cancel current~~ I2 high frequency current I1 distributed in the upper body 21a and the lower body 21b of the foldable portable terminal set 40.
